

Tuna RFMO Best Practice Performance

Key	 RFMO Best Practice Leader	 Some Progress: Needs Improvement	 Limited Progress
------------	---	--	--

	 IUU Vessel List	 Authorized Vessel Record	 Compliance Assessment Process	 EM and 100% Observer Coverage	 Supply & Tender Vessels	 VMS	 At-Sea Transshipment	 FAD Management
CCSBT					N/A Only used sporadically to supply fuel, bait, food, etc. FADs are not used in the CCSBT.	N/A Depends on the RFMO CA in which the vessel is operating*		N/A
IATTC				EM standards adopted 100% observer coverage for LSPS				
ICCAT				EM standards adopted 100% observer coverage for LSPS 10% observer or EM coverage for LSLL				
IOTC				EM standards adopted 5% observer coverage only				
WCPFC				EM standards adopted 100% observer coverage for LSPS				

*CCSBT requires CPCs to adopt and implement satellite-linked VMS for vessels fishing for southern bluefin tuna as specified by the relevant VMS requirements of the RFMO in which the fishing for southern bluefin tuna is being conducted (i.e., IOTC, WCPFC, CCAMLR or ICCAT).
