# 1 Introduction

To support tuna stock and tuna ecosystem sustainability, ISSF Participating Companies (PC) have committed to meet conservation measures designed to improve the long-term health of tuna fisheries.

This document describes the protocol for the auditing of PC compliance with those conservation measures in effect for Q4 of 2019 through Q3 of 2020.

Per the [ISSA Compliance Policy](#), PCs are obliged to respond fully, accurately and in a timely manner to all reasonable requests made during the reviews. PCs must provide appropriate supporting documents, data or other support. Appropriate confidentiality obligations will be established and observed by ISSF staff and the consultant(s). MRAG will provide a Final Audit Report on each company's participation and cooperation in the audit process.

Following completion of the Final Audit Report, in accordance with the ISSA Compliance Policy, follow-up auditing may be required to address corrective actions and prepare an updated compliance status report. The ISSA Compliance Policy requires that the PC must bear the expense of the follow-up audit and will be subject to a separate agreement between the PC and MRAG. No additional auditing shall commence until the agreement is signed and initial deposit paid by the PC. Payment for the follow-up audit is required irrespective of the outcome of the efforts to resolve non-conformances. ISSF will not publish a PC's updated compliance status report on the ISSF website until MRAG has been paid for the work performed and all the requirements of the Compliance Policy have been satisfied. Under the Compliance Policy, failure of the PC to pay the auditor for any follow-up audits referenced in the Compliance Policy will result in a major non-conformance against the PC. Please refer to the ISSA Compliance Policy for complete information.

This document will be amended as required.

## 2 Program implementation

### 2.1 Participating Company Compliance

PCs commit to undergo independent auditing against all the in-effect ISSF conservation measures. Table 1 lists the conservation measures in effect for Q4 of 2019 through Q3 of 2020 to be audited under this protocol, provides guidance regarding the required action and/or information, and describes the means of verification that will be used to assess conformance. Each PC is expected to voluntarily provide all necessary information to ISSF and/or MRAG Americas. We encourage PCs to verify that the point of contact they initially provided to ISSF remains up to date. MRAG is authorized by ISSF to liaise only with the PC's designated point of contact. We cannot liaise with anyone else for the purposes of the audit.

The audits will generally follow the principles of ISO 19011. The Program Manager ensures audits are compliant and consistent with the in-effect ISSF conservation measures.

In advance of the annual audit, company details including contact information for the designated contact person will be confirmed with each company. Based on activity, the traceability sample size will be determined and sent with the audit plan. Finally, note that annual audit/traceability data requests for companies processing only loins and/or trading finished goods will encompass a longer time frame than for round fish. The basic audit process is described in the following chart:

| <b><u>Step</u></b> | <b><u>Task</u></b>                               | <b><u>Actions</u></b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------|--------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1                  | <b>Audit Planning and Scheduling</b>             | PCs provide quarterly RFMO data. Audit planning for annual assessments includes an information request to all PCs for a list of controlled vessels, company policies, confirmation of affiliated companies that will be included in the audit and an information request for data to be used for traceability exercises. Thereafter, the auditor requests information relating to specific transactions/can codes along with evidence of conformance with all other conservation measures. Each phase will have associated deadlines for data submission. |
| 2                  | <b>RFMO Data Review</b>                          | This phase of the audit includes a review of all quarterly RFMO data for Q4 2019 through Q3 2020 submissions, along with a review of recent RFMO compliance committee reports, commission reports, etc.                                                                                                                                                                                                                                                                                                                                                   |
| 3                  | <b>Policy Review</b>                             | This phase of the audit includes a review of company policies and a request for sales data from which traceability exercises may be based. The PC may meet the request for traceability data in the form of a list of sales invoices for PVR products or a list of PVR can codes produced.                                                                                                                                                                                                                                                                |
| 4                  | <b>Traceability Audit, etc.</b>                  | This phase of the audit includes a review of the transactions or can codes selected for the traceability exercises and any conservation measures not assessed during the previous phase.                                                                                                                                                                                                                                                                                                                                                                  |
| 5                  | <b>Preliminary Audit Report</b>                  | At the completion of all audit phases, the auditor(s) will prepare a preliminary report outlining performance, including any non-conformances, and provide the report to the PC and ISSF.                                                                                                                                                                                                                                                                                                                                                                 |
| 6                  | <b>Remediation Period and Final Audit Report</b> | A 30-day discussion/remediation period will follow each preliminary report, during which PCs can provide to the auditor(s) clarifications or additional information to resolve non-conformances. At the end of this 30-day period, the auditor(s) will issue a Final Audit Report to the PC and ISSF. It is strongly recommended that each PC's designated point of contact makes himself or herself available during this discussion/remediation period.                                                                                                 |
| 7                  | <b>Follow-Up Audit (if necessary)</b>            | Any follow-up audits will be conducted in accordance with the ISSA Compliance Policy. (See Section 1).                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

### 3 Conservation Measures and Means of Verification

**Table 1: ISSF Conservation Measures, Audit Guidance and Means of Verification**

| Conservation Measure | Category                           | Gear Type | Category Guidance                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Means of Verification                                                                                                                                                                                                                                                                                                                                                                                                         | Frequency |
|----------------------|------------------------------------|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| 1.1                  | Tuna RFMO Authorized Vessel Record | All       | All purchases must be from vessels listed on the authorized vessel record of the RFMO governing the ocean area in which the tuna was caught, at the time of the fishing trip, so long as the vessel is of a size subject to listing in the RFMO authorized vessel record. For any purchases from non-PVR vessels, maintain a system to check and approve vessel listing.                                                                                             | Auditor reviews company system to ensure that purchases are from properly listed vessels. The traceability exercises, reviewing RFMO vessel records and checking ocean areas where vessels are fishing, verifies the system.                                                                                                                                                                                                  | Annually  |
| 1.2                  | RFMO Participation                 | All       | All purchases must be from vessels flagged to a member or cooperating non-member (CNM) of the relevant RFMO or have applied with the RFMO for either status. If membership is not possible under the RFMO Convention, processors, traders, importers, transporters, marketers and others involved in the seafood industry shall conduct transactions only with those vessels that are flagged to Invited Experts, or another approved designation, to any such RFMO. | Auditor reviews quarterly data sent by the company to the RFMO to check that all vessels meet this requirement.                                                                                                                                                                                                                                                                                                               | Quarterly |
| 2.1                  | Product Traceability               | All       | Demonstrate ability to trace products from can code or sales invoice to vessel and trip.                                                                                                                                                                                                                                                                                                                                                                             | Auditor will review recent mock recalls, if available, and select a sample (i.e. all sales for a specific month) of can codes or sales invoices by label and destination from which the company will conduct traceability exercises. If the company produces cans from loins, or sells loins as a finished good, these products must be included in the assessment and the traceability exercise will cover a 3-month period. | Annually  |

| Conservation Measure | Category                                         | Gear Type | Category Guidance                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Means of Verification                                                                                                                                                                                                                                                                                                                                                                                                                  | Frequency |
|----------------------|--------------------------------------------------|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| 2.2                  | Quarterly Data Submission to RFMO                | All       | <p>a. Send information for all round fish purchases (skipjack, albacore, yellowfin, bigeye) as described in the measure to RFMO scientific bodies for each quarter by the last day of the following calendar quarter.</p> <p>b. <a href="#">As described by ISSF</a>, for each quarter, Participating Companies are required to report to RFMO (no later than the last day of the following calendar quarter) if they have no purchase of round fish (in total or from a typical RFMO region).</p> <p>c. A Participating Company that only purchases loins and finished goods is exempt from sending RFMO data. However, company must affirm so quarterly via an unprompted email to <a href="mailto:rfmodata@iss-foundation.org">rfmodata@iss-foundation.org</a></p> | <p>Auditor checks that information has been sent by companies to RFMO for all purchases.</p> <p>Auditor checks if PC has sent quarterly report to the RFMO, indicating that company only purchases loins and/or finished goods.</p> <p>Auditor checks that email has been sent to <a href="mailto:rfmodata@iss-foundation.org">rfmodata@iss-foundation.org</a> indicating that company only purchases loins and/or finished goods.</p> | Quarterly |
| 2.3                  | Product Labelling by Species and Area of Capture | All       | <p>Processors, traders, importers, transporters, marketers and others involved in the seafood industry shall on all product labeling, or through a publicly available web-based system by product, for all branded tuna products:</p> <p>1. Identify the species of tuna contained in the product. For example:</p> <p>Katsuwonus pelamis, Skipjack, Bonite, Listado</p> <p>Thunnus alalunga, Albacore, Germon, Atún blanco</p> <p>Thunnus albacares, Yellowfin, Thon Jaune, Rabil</p> <p>Thunnus obesus, Bigeye, Thon Obese, Patudo</p>                                                                                                                                                                                                                              | <p>Auditor obtains list of consumer-facing branded products, and checks that said list includes information on the species of tuna (scientific name and/or common name), and ocean of capture.</p> <p>Auditor may also verify conformance with this CM during the annual traceability exercise.</p>                                                                                                                                    | Annually  |

| 2.4                  | Supply Chain Transparency, Audit, Reporting and Purchase Requirements | All       | <p>Processors, traders, importers, transporters, marketers and others involved in the seafood industry shall:</p> <p>1. For purchases from fish trading organizations that trade 10,000 tons or more of tuna annually (not directly from fishing vessels), purchase all round; gilled and gutted; or headed, gilled and gutted albacore, skipjack, yellowfin and/or bigeye tuna from:</p> <p>(a) ISSF Participating Companies; or</p> <p>(b) companies designated by ISSF as Data Check Companies<sup>1,2</sup> that have a published compliance audit report with respect to ISSF Conservation Measures 2.2, 1.1, 4.1, 4.2, and 5.1, as determined and reported by the ISSF external auditor on or before January 31, 2020 and subsequently become ISSF Participating Companies on or before December 31, 2022.</p> <p>2. If purchasing from processing organizations that purchase and process more than 12,500 round tons per year, purchase all frozen loins or processed, shelf-stable, canned or pouched products of albacore, skipjack, yellowfin and/or bigeye tuna from:</p> | <p>Auditor reviews list of all traders and processing organizations that supplied round fish during audit year. Auditor cross references list of traders and processing organizations with quarterly RFMO reports and during traceability exercise.</p> <p>Auditor then checks if trader / processing organization is an ISSF PC or DCC. If neither, then auditor assumes total trade is in excess of 10,000 / 12,500 tons (whichever applies), unless PC provides clear evidence that supplier annual trade / processing is significantly less.</p> | Annually  |

<sup>1</sup> A Data Check company is considered 'approved' if they have a published compliance audit report with respect to ISSF Conservation Measures 2.2, 1.1, 4.1, 4.2, and 5.1, as determined and reported by the ISSF external auditor on or before January 31, 2020 and subsequently become ISSF Participating Companies on or before December 31, 2022.

<sup>2</sup> The classification of a "Data Check Company" is available to processors, marketers, traders of tuna after completing two quarters of data reporting and continually annually thereafter. The "Data Check Company" classification is not available for any company that is an ISSF Participating Company on December 31, 2019.

|                      | Companies without a Public Policy Prohibiting Shark Finning |                 | finning no policy is required. If flag state allows 5% shark fin retention, the company must have a public policy.                                                                                                                                                                                                                                                                                                                                                                           | company that has a public policy prohibiting shark finning. For flag states that do have an absolute shark finning prohibition, auditor will review all publicly available material to ensure no shark finning has taken place. Traceability exercises by transaction or can code to PVR vessels or proof of compliance verifies the system.                                           |                                     |
| 3.2                  | Large-Scale Pelagic Driftnets Prohibition                   | All             | No transactions in vessels using large-scale pelagic driftnets.                                                                                                                                                                                                                                                                                                                                                                                                                              | <p>Auditor reviews quarterly report by gear type and identifies any use of large-scale driftnets. This is done by first identifying vessels using gill nets, then following up on the size of the net. Maximum net size is 2.5 km.</p> <p>Auditor reviews RFMO compliance committee reports for any indication of vessels using large-scale pelagic driftnets.</p>                     | Quarterly, or as reports are issued |
| 3.3                  | Full Retention of Tunas                                     | All Purse Seine | All purse seine caught tuna (skipjack, yellowfin and bigeye) retained onboard, except those unfit for human consumption as defined, or when in the final set of a trip, there is insufficient well space to accommodate all fish caught in that set. If the vessel fishes in areas where full retention is mandatory, no further policy is needed. If RFMO does not require full retention, vessel must have documented and implemented policy in accordance with this conservation measure. | Auditor reviews whether the company sources tuna from vessels that practice full retention of tunas. Auditor checks PVR. For vessels not listed on the PVR, company provides evidence of vessel policy such as: agreement with observer provider to check tuna retention and RFMO or flag state requirement regarding full retention of tunas. RFMO compliance reports are reviewed to | Annually                            |

| 4.1                  | Unique Vessel Identifiers - IMO       | All             | All purchases must be from vessels with an IMO UVI number, unless ineligible due to IMO requirements or due to other reasons stated by IMO.<br><br><b>NOTE:</b> The IHS Maritime & Trade (IHSM&T), which manages IMO identification numbers, has <a href="#">expanded the range of vessels</a> that are potentially eligible to obtain an IMO number to include small-scale vessels of less than 100 GT down to a size limit of 12 meters in length overall (LOA) that are authorized to fish outside waters under national jurisdiction. Vessels that are now eligible to obtain an IMO UVI number under this change must apply for and/or have received an IMO number by December 31, 2017.<br><br>Vessels that fish only in waters under national jurisdiction that provide a national certificate of operation will be considered compliant under this section. | Auditor reviews company system to ensure vessel purchases meet this criterion. A sample of non-PVR purchases will be reviewed to assess whether the company system is adequate to ensure that non-PVR vessels meet this requirement. | Annually  |
| 4.2                  | Purse Seine Unique Vessel Identifiers | All Purse Seine | If IMO requirements do not provide for a particular vessel to receive an IMO UVI for reasons other than vessel size, the vessel shall obtain a TUVI from the Consolidated List of Authorized Vessels (CLAV) CLAV: <a href="http://www.tuna-org.org/GlobalTVR.htm">http://www.tuna-org.org/GlobalTVR.htm</a> or a UVI from ISSF: <a href="http://issf">http://issf</a>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Auditor reviews company method to ensure that all vessel purchases meet this criterion. A sample of non-PVR purchases will be reviewed to assess whether the company system is adequate to                                           | Annually  |

<sup>5</sup> For the purposes of this measure, shark lines are those defined in the following paper:

|                      |                                           |                                | <p><a href="https://www.issf.org/foundation.org/wpcontent/uploads/downloads/2015/02/UVI-and-IMO-numbering-instructions-2015.pdf">foundation.org/wpcontent/uploads/downloads/2015/02/UVI-and-IMO-numbering-instructions-2015.pdf</a>.</p> <p>If IMO requirements do not provide for a particular vessel to receive an IMO UVI due to vessel size, such vessels do not need to obtain a TUVI from the CLAV or a UVI from ISSF.</p>                                                                                                             | ensure that non-PVR vessels also meet this requirement.                                                                                                                                                                                                                                                                                                                             |           |
| 4.3(a)               | Observer Coverage                         | Large Purse Seine <sup>6</sup> | Evidence of 100% observer coverage (human or electronic) unless exempt or prevented by force majeure. The data collected by the observer must be made available to the flag state authorities and, if appropriate, to the RFMO, in the format required by the flag state (and RFMO). In case the flag state (or RFMO) does not accept the data, the vessel owner must store data for at least three years from the end of the trip. At a minimum, data to be made available are those fields required by the flag state for vessel logbooks. | Auditor assesses company system for observer coverage of controlled vessels, company data submission to RFMOs and RFMO committee meetings and compliance reports, etc. For non-PVR vessel purchases, the PC provides details of agreement with observer provider (human or electronic) for 100% coverage. If RFMO requires 100% observer coverage, no further evidence is required. | Annually  |
| 4.3(b)               | Observer Coverage Exemption - WCPO Region | Large Purse Seine              | Exemptions may be made for large-scale purse seine vessels in the Western and Central Pacific Ocean fishing in latitudes higher than 20°N/S in cases where the catch (retained and discarded; target and non-target) is adequately sampled and reported to the RFMO. Such exemptions shall be based on a detailed report that will be reviewed and approved by the ISSF Board and announced publicly through the ISSF website.                                                                                                               | Auditor reviews evidence that the vessel meets the requirements for this exemption.                                                                                                                                                                                                                                                                                                 | Annually  |

<sup>6</sup>Large-scale purse seine vessels are defined as those with at least 335 m3 fish hold volume.

| Conservation Measure | Category                                                                           | Gear Type         | Category Guidance                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Means of Verification                                                               | Frequency |

|                      |                                                                                                                |                   | <p>shall be &lt;1.8 Kg, 1.8-3.5 Kg, 3.5-10.0 Kg and &gt;10.0 Kg.</p> <p>4. For the purpose of verifying compliance with this measure, ISSF will contact SPC quarterly to determine which vessels are submitting the reports in paragraph 3. Vessels that have not submitted complete reports for the past three months according to their fishing plan in paragraph 1 will no longer qualify for this exemption.</p> <p>This measure is effective from October 28, 2020 onward.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                    |           |
| 4.3(c)               | Observer Coverage – Grace Period for Electronic Monitoring Systems for Certain Large-Scale Purse Seine Vessels | Large Purse Seine | <p>Certain vessels that meet the definition of large-scale purse seine vessels under ISSF conservation measures are not considered large-scale in certain RFMOs and therefore are unable to obtain human observers for each fishing trip to meet the requirements of ISSF Conservation Measure 4.3(a). Owners of large-scale purse seine vessels who fit in this category may seek to install an electronic monitoring system (if proven to be effective) in lieu of human observers. In such an event, the following provisions apply:</p> <p>1. The vessel owner must identify each vessel involved and provide satisfactory evidence of an executed agreement with a service provider to install an electronic monitoring system on each vessel. A satisfactory ‘executed agreement’ should:</p> <ul style="list-style-type: none"> <li>- be dated and signed,</li> <li>- list all parties engaged in the transaction along with their contact information,</li> </ul> | Auditor reviews list of vessels having applied for, and being granted, the grace period. Auditor compares vessel(s) grace period to PC sourcing records to ensure the dates align. | Annually  |

|                      |                                            |                      | <p>adequately sampled according to the RFMO science provider.</p> <p>Such exemptions shall be based on a detailed report that will be reviewed and approved by the ISSF Board and announced publicly through the ISSF website.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |           |
| 4.4(b)(i)            | Transshipment Exemption – Papua New Guinea | Large Purse Seine    | No transactions in vessels that transship unless they have been granted an exemption under this clause (fishing only in the archipelagic waters of PNG; and that are based in PNG and are associated with processing facilities in PNG).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | During the traceability exercise, the auditor reviews any instance of transshipment to assess whether the exemption applies.                                                                                                                                                                                                                                                                                                                                                    | Annually  |
| 4.4(c)               | Transshipment at Sea – Observer Coverage   | Large-scale Longline | <p>Processors, traders, importers, marketers and others involved in the seafood industry shall conduct transactions with longline vessels that conduct transshipments at sea, whether high seas, EEZ, territorial seas or archipelagic waters, only if 100% of such transshipments are observed (either by a human observer on board the longline vessel or onboard the carrier vessel).</p> <p>Note: The WCPFC E-reporting system allows transshipment declarations (TDs) to be filed without the observer’s signature. In such cases, Company should obtain a copy of the observer contract, the crew list (signed and dated by the skipper), or some other evidence of 100% observer coverage for the period during which TDs were submitted using the E-reporting system.</p> <p>For the purposes of this measure, a large-scale` longline vessel is defined as a vessel that is equal to or greater than 20m length overall (LOA).</p> | <p>Auditor assesses participating company system to determine observer coverage on large-scale longline, and/or transshipment, vessels they source from.</p> <p>Company shall maintain record(s) of RFMO transshipment declarations, which must be signed by the observer present during transshipment. If vessel uses the WCPFC E-reporting system for a TD, auditor asks Company to provide a copy of the observer contract, crew list or other evidence for that vessel.</p> | Annually  |

| 5.1                  | Illegal, Unreported and Unregulated (IUU) Fishing                                                         | All               | No transactions with vessels on any tuna RFMO IUU vessel list.                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Auditor reviews quarterly data sent by the company to the RFMO for the presence of IUU listed vessels.                                                                                                                                                                                                                            | Quarterly             |
|                      |                                                                                                           |                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Auditor reviews the company purchasing system to prevent IUU fish. This will also be assessed during traceability exercises to verify that products do not originate from IUU vessels and by reviewing compliance committee reports, commission reports, etc.                                                                     | Annually              |
| 5.2                  | Illegal, Unreported and Unregulated (IUU) Product Response                                                | All               | No IUU purchases. If IUU found, company must withdraw these products from the marketplace.                                                                                                                                                                                                                                                                                                                                                                                                                          | Auditor reviews company recall procedure for presence of IUU policy, then reviews company purchases and compares to RFMO IUU lists.                                                                                                                                                                                               | Annually              |
|                      |                                                                                                           |                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Company initiates market withdrawal of IUU products.                                                                                                                                                                                                                                                                              | As needed             |
| 6.1                  | Transaction Ban for Large-Scale Purse-Seine Vessels not Actively Fishing for Tuna as of December 31, 2012 | Large Purse Seine | Demonstrate that all purchases from large-scale purse seine vessels are from vessels actively fishing for tuna on or before December 31, 2012 but cannot have ceased fishing operations prior to January 1, 2010 and listed on the ISSF Record of Large-Scale Purse Seine Vessels (Record). If a vessel is not listed on the Record, the company shall provide evidence of the vessel attributes in accordance with Conservation Measure 6.2 (a). Any updates to the Record must be made in accordance with 6.2(a). | Auditor reviews company purchases from large-scale purse seine vessels to assess whether the source vessels are listed on the ISSF Record of Large-Scale Purse Seine Vessels. If source vessels do not appear in the Record, the company must provide evidence in accordance with Conservation Measure 6.2(a) as described below. | Annually              |
| 6.2(a).2.a           | Requirements for Inclusion in Record of Large-Scale                                                       | Large Purse Seine | Provide certification from government body that vessel was licensed to fish for tuna on or before December 31, 2012, and that vessel did not cease fishing operations prior to January 1, 2010.                                                                                                                                                                                                                                                                                                                     | ISSF reviews evidence provided by vessel owner to determine whether vessel is eligible to be listed on the ISSF Record.                                                                                                                                                                                                           | Annually or as needed |

|                      | Purse Seine Vessels Fishing for Tropical Tunas                                                     |                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                 |                       |
| 6.2(a).2.b           | Requirements for Inclusion in Record of Large-Scale Purse Seine Vessels Fishing for Tropical Tunas | Large Purse Seine | To demonstrate that the vessel was contracted for construction before 12/31/12, the vessel representative may provide such evidence as a signed contract, supporting correspondence, deposit paid, plans, photos, etc., certificate from IACS member, IMO number or RFMO record. To demonstrate that construction was completed before 6/30/15, the vessel may provide such evidence as completion of sea trial, certificate from shipyard, sale of fish, skippers log, observer report, etc., certificate from government agency. | Auditor reviews evidence provided by company to determine whether vessel is eligible to be listed on the ISSF Record.                                                                                                                                                                           | Annually or as needed |
| 6.2(a).2.c           |                                                                                                    |                   | Vessel provides update regarding name, flag or registration number.                                                                                                                                                                                                                                                                                                                                                                                                                                                                | ISSF reviews evidence provided by vessel owner to determine whether vessel is eligible to be listed on the ISSF Record.                                                                                                                                                                         |                       |
| 6.2(a).2.d           |                                                                                                    |                   | The addition of a new large-scale purse seine vessel that is built as a replacement for a vessel already on the Record that has sunk, has been scrapped or otherwise permanently transferred out of the tropical tuna fishery. <sup>7</sup> The addition of the new vessel will be permitted only to the extent it replaces one or more older vessels on the ISSF Record and its fish hold volume is less than or equal to the fish hold volume of the older vessel(s) that were on the ISSF Record.                               | Auditor determines whether the old vessel has been scrapped, has sunk and/or has been permanently retired from all tuna fisheries. If scrapping of an old vessel is presented as evidence, auditor looks for scrapping contract and evidence that scrapping has occurred. Such evidence must be |                       |

<sup>7</sup> “Permanently transferred out of the tropical tuna fishery” means that the vessel cannot operate in any tropical tuna fishery, even if it is no longer operating as a large-scale purse seine vessel and is now being used for support and tender operations.

| 7.4                  | Supply and Tender Vessels | All Purse Seine | <p>1. Processors, traders, importers, transporters, marketers and others involved in the seafood industry, for skipjack, yellowfin and bigeye tuna with controlled supply or tender vessels that operate with purse seine vessels fishing for skipjack, yellowfin and bigeye tuna, shall:</p> <p>(a) register all such vessels on the ISSF ProActive Vessel Register (PVR) and thereafter maintain such registration indefinitely;</p> <p>(b) ensure all such vessels are listed on the authorized vessel record of any of the RFMO governing the ocean area in which the tuna was caught;</p> <p>(c) ensure all such vessels have an IMO unique vessel identifier; and</p> <p>(d) ensure all such vessels are not listed on the IUU Vessel List of any RFMO.</p> <p>2. For the purposes of this measure, controlled vessels include vessels as defined in ISSF CM 7.1.</p> <p>3. When registering all controlled supply or tender vessels on the PVR, in addition to the vessel attribute data already required as part of the PVR listing application, the vessel owner must provide the vessel names and flags of all the purse seine vessels that the listed supply or tender vessels support, to the maximum extent possible.</p> <p>4. For purposes of this measure, supply and tender vessels are any vessel used, or intended for use, for the purpose of fishing or the transport of fishery</p> | <p>Auditor asks participating company for list of supply and tender vessels and checks whether vessels are listed on the PVR.</p> <p>Auditor verifies vessel attribute data, IMO number, RFMO registration, ownership, and whether vessel(s) appear on RFMO IUU lists.</p> <p>Auditor reviews list of PS vessels linked to each supply &amp; tender vessel. PS vessel list must include vessel names and flags.</p> | Annually  |

| 7.5                  | Purchases from PVR Vessels                                | Longline          | <p>If purchasing albacore, yellowfin and bigeye tuna from longline vessels, processors, traders, importers, transporters, marketers and others involved in the seafood industry shall:</p> <p>Develop and make public by December 31, 2019 a statement of intent to increase purchases from longline vessels registered on the PVR.</p> <p>Publish the percentage of their longline purchases from PVR registered longline vessels by March 31, 2020 or indicate no such purchases made.</p> | <p>If PC purchases albacore, yellowfin or bigeye tuna from longline vessels, auditor checks for public PC statement of intent to increase purchases from longline vessels registered on the PVR.</p> <p>Auditor checks for published PC statement(s) regarding the percentage of tuna sourced from PVR registered longline vessels. Auditor verifies the stated percentage against volumes reported in the quarterly RFMO reports.</p> <p>Or, if no purchases of albacore, yellowfin or bigeye tuna are made from longline vessels, auditor checks for PC statement indicating that no purchase was made from PVR registered longline vessels and cross-checks with quarterly RFMO reports.</p> | Annually  |
| 8.1                  | Exemption for Very Small Purse Seine Vessels <sup>9</sup> | Small Purse Seine | <p>Very small purse seine vessels are exempted from the following ISSF Conservation Measures:</p> <p>3.4 Skipper Best Practices</p> <p>4.4(a) Transshipment</p>                                                                                                                                                                                                                                                                                                                              | The company can demonstrate that the vessel is less than 30 GT by providing fishing licenses, vessel surveys, photos, etc.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Annually  |

<sup>9</sup> For the purposes of this measure “very small purse seine vessels” are those vessels of a size less than 30 GT.

## 3.1 Audit Determination and Reporting

The auditing described in this document serves as an assessment of conformance by PCs. Any significant gaps in conformance and where corrective actions may be necessary will be specified. Timelines for remediation will be in accordance with the [ISSA Compliance Policy](#) and confirmed by MRAG. Depending on the nature of the non-conformance and the required corrective action, a follow up audit may be required (see ISSA Compliance Policy).

### 3.1.1 Non-conformances

Conformance is categorized into grades (Conformance, Observation, Minor Non-Conformance or Major Non-Conformance). Non-conformances must be raised against specific ISSF conservation measures. The severity of the non-conformance – and whether this jeopardizes the integrity of the ISSF program – determines which non-conformances are raised.

MRAG Americas defines audit findings as follows:

- Conformance - the PC can provide evidence of compliance with a conservation measure or commitment
- Observation - the PC is currently in compliance but there is a high risk that non-conformance could occur inadvertently without implementing preventative actions
- Minor Non-conformance – the PC does not comply with a conservation measure or commitment, but this does not compromise the integrity of the ISSF initiatives<sup>10</sup>
- Major Non-conformance – the PC does not comply with a conservation measure or commitment and this compromises the integrity of the ISSF initiatives<sup>11</sup>

MRAG Americas' procedures for handling non-conformances for PCs are as follows:

- MRAG Americas substantiates conformance through documented evidence.
- Where a company cannot provide documented evidence of conformance with a conservation measure or commitment, a non-conformance must be issued.
- All non-conformances must be graded either major or minor.
- In the case of a non-conformance, ISSF may require a Corrective Action Response (CAR) in accordance with the ISSA Compliance Policy.

### 3.1.2 Corrective Action Responses (CARs)

To rectify certain non-conformances, the PC may be given the opportunity to provide a CAR in accordance with the ISSA Compliance Policy. The nature of the CAR is at the discretion of the PC. MRAG Americas does not advise on what specific corrective action the PC may take but will assess whether the CAR is expected to address the non-conformance.

### 3.1.3 Audit Reports

All audit reports are provided directly to ISSF and the PC designated contact person via email notification. Actions following receipt of the final report, including the opportunity for a CAR and/or sanctions are in

<sup>11</sup> Example: PC did not submit RFMO data.

accordance with the ISSA Compliance Policy. Any issues raised by the PC with regard to the audit findings will be directed to ISSF.

Final Audit Reports and any updated compliance status reports will be retained electronically for the duration of the PC's participation and will be available to ISSF at all times.

## **4 Annex 1. Audit Program Policy**

### **4.1 Overall Audit Policy**

It is the policy of MRAG Americas to ensure that its audit operations are consistent with defined standards and procedures to maintain the highest appropriate level of quality. To this end, MRAG Americas undertakes ISSF audits per the standards and procedures described in this manual and only within the scope of the ISSF conservation measures current at the time of auditing. MRAG Americas has developed this document and its auditing procedures with guidance from ISO/IEC 17065:2012(E).

Specifically, it is the policy of MRAG Americas to ensure that:

- All ISSF audits meet these documented standards for independence, accuracy, precision, representativeness, comparability, and suitability to their intended purposes;
- All ISSF audits are verifiable and defensible, and all components related to their generation are properly documented;
- Data integrity is maintained and documented;
- Data confidentiality is maintained;
- Audit Program reviews are conducted on a scheduled and documented basis;
- Managers, supervisors, and staff throughout MRAG Americas, and its contractors, understand their roles in managing quality; receive the training necessary to meet quality standards for job tasks; and are encouraged to identify and suggest improvements to the program.

### **4.2 Program Manager**

In all respects, the Program Manager (Mr. Oleg Martens) is responsible for ensuring that the content of this manual is followed. The Program Manager is the main contact point at MRAG Americas for ISSF audit-related queries and drives the MRAG Americas program.

The Program Manager's main responsibilities include:

- a) Organizing and coordinating ISSF audits for MRAG Americas
- b) Supervising assessment teams
- c) The first point of contact for ISSF audit enquiries
- d) Ensuring quality assurance of documentation
- e) Maintenance of data confidentiality
- f) Regularly convening MRAG Americas senior management for review and oversight
- g) Identifying potential conflicts of interest
- h) Leading program review and improvements

The Program Manager ensures the audit policy and systems are amended and updated as necessary and is responsible for ensuring changes and improvements are captured and communicated to auditors for implementation in subsequent assessments, as appropriate.

### 4.3 Assessment Team

MRAG Americas selects auditors and other experts based on their competence, training, qualifications, and experience for an Assessment Team (or individual) to conduct ISSF audits. All personnel involved in the audit are provided with and briefed on up to date ISSF documentation for auditors. Documentation includes:

- a) Contractual obligations on auditors, including requirements to report actual and potential conflicts of interest and to maintain confidentiality;
- b) Specification of division of responsibilities between auditors and experts of MRAG Americas;
- c) Procedures to be undertaken by auditors;
  - prior to audits;
  - during onsite audits;
  - after audits, e.g., specification of responsibilities and recommended schedules for report writing; and
- d) Information about the overall role of the auditor and audit process in maintaining the integrity of the conservation measures.

Any person engaged by MRAG Americas as an auditor for the ISSF audit program has:

- received a copy of this document;
- received sufficient training in the correct procedures and requirements for ISSF audits;
- received a copy of all applicable ISSF conservation measures;
- received a copy of ISSF Audit Checklists (Annex 2);
- received a copy of ISO 19011 Standard;
- sufficiently demonstrated their performance and capabilities to the appropriate level prior to conducting solo audits; and
- signed an MRAG Americas contract (either as an employee or contractor), which includes terms of reference, conflict of interest, confidentiality, a Statement of Non-Disclosure, timing, and responsibilities of the assessor.

### 4.4 Auditor training

Audits are carried out by fully trained MRAG Americas auditors. These auditors are experienced in other audit programs and will be provided with ISSF audit training to ensure they fully understand the specific ISSF audit criteria.

The training program will include:

- Desktop training (remote)
- Shadow audit(s) observing an MRAG Americas experienced auditor
- Annual refresher training
- Performance review audits by an MRAG Americas experienced auditor

### 4.5 Documentation and Means of Verification

Document control procedures are used to ensure accurate tracking and management of all documentation utilized during audits. Other than documents requiring an original signature, such as contracts with clients, which may be kept in both paper and electronic formats, MRAG Americas keeps electronic versions of documents for official record keeping.

Copies of vessel and company documentation (either electronic or hard copy) are considered acceptable audit evidence. In some instances, for example in the case of commercially sensitive documents, sighting of a document on a computer screen during a webinar session (i.e. using screen sharing) may be an option<sup>12</sup>.

Where a company is audited for purposes other than ISSF, evidence from those audits can be submitted as evidence for the purposes of the ISSF audit. However, while those other audits can be used to provide additional evidence and enhance efficiency for the company to report information showing conformance with conservation measures, they cannot be used to supplant the MRAG Americas audit against ISSF conservation measures.

MRAG Americas will use the PC Compliance checklist for all audits. The completed and reviewed audit checklist will also serve as the audit report. A copy of the audit report will be provided to both ISSF and the company.

MRAG Americas will endeavor to allocate auditors who speak the language in common use at the company being audited. Translation of audit evidence into English and/or audit reports from English into the language of the company will be the responsibility of ISSF.

## 4.6 Confidentiality and data security

### 4.6.1 Confidentiality

Much of the information needed to confirm conformance with ISSF conservation measures may be confidential to the PC being audited. MRAG Americas limits access to confidential data to employees and contract auditors authorized to work on specific audits. MRAG Americas understands that the fishing, management, and/or processing operations they assess may include proprietary fishing strategies, locations, data, and business information and practices. All MRAG Americas employees involved in PC audits, including office personnel and individuals participating in subcontracts (e.g. contract auditors) sign a binding confidentiality/non-disclosure agreement in which they undertake not to discuss or communicate any confidential information to third parties other than as required within MRAG Americas as a normal part of the audit programme. Data are not to be released, reproduced, distributed, or published without prior approval of ISSF. MRAG Americas follows strict data management procedures to protect the confidentiality of audit information. MRAG does not publish any form of audit data, other than as required in the ISSF audit process, without the express consent of ISSF.

MRAG Americas reserves the right to disclose Confidential Information to its responsible employees and individuals participating in subcontracts with a *bona fide* need to know such Confidential Information. Recipients are informed that the information is confidential and is for the sole purpose of the specific project. MRAG Americas may disclose Confidential Information if and to the extent that such disclosure is required by applicable law, provided that they use reasonable efforts to limit the disclosure by means of a protective order or a request for confidential treatment and provide the owners of the information

---

<sup>12</sup> The decision regarding whether sighting of a document in this way is acceptable will be made by the Auditor following policy advice from MRAG Americas. This will depend on the nature of the document and the conservation measure or commitment for which it is being used as evidence of conformance.

(i.e. the PC) a reasonable opportunity to review the disclosure before it is made, and to interpose its own objection to the disclosure.

#### **4.6.2 Data Security**

ISSF data and/or open computer files will not be left unattended and confidential data are gathered from output devices immediately. Any data output not included in reports sent to ISSF are shredded immediately. MRAG uses a multi-user network of computers. MRAG will ensure security of the network with a three-level approach. The original networking software will contain firewall code that will protect the network from unauthorized access. Access to all network terminals is by password only.

All computer files associated with, or containing, confidential data are stored only in directories on a system that is password-protected, and only authorized personnel have access to system passwords. Each authorized employee will have a unique password and passwords will allow access to only select files. The Program Manager is responsible for maintaining data security.

#### **4.7 Compliance with legal requirements**

MRAG Americas complies with all legal requirements in the countries in which the company operates and key personnel have demonstrable understanding of such legislation and regulations.

Should MRAG Americas become aware at any time that legal proceedings have been instigated or other allegations concerning the legal compliance of MRAG Americas activities associated with this program arise, we shall notify ISSF as soon as is practicable and within a maximum of seven days. MRAG Americas shall advise ISSF of the outcome of any such proceedings or allegations.

#### **4.8 Program Review**

Program review for PC audits will occur annually. The Program Manager will also conduct ongoing program reviews (on a minimum annual basis) to ensure program activities are as effective and efficient as practicable to achieve program outcomes.
