Audit purpose	
<b>Audit objective</b>	The purpose of this audit is to validate Data Check Company (DCC) compliance with specific ISSF conservation measures in place for the year of activity being audited.
<b>Audit criteria</b>	The DCC compliance audits are carried out as defined in the <a href="#">ISSF Data Check Company Compliance: Audit Policy Document and Standard Operating Procedures</a> .
<b>Audit outcomes</b>	The auditing serves as an assessment of conformance by DCCs. Any significant gaps in conformance and where corrective actions may be necessary will be specified. Timelines for remediation will be prescribed by MRAG in the audit report, however any sanctions or other actions will be at the discretion of ISSF. Depending on the nature of the non-conformance and the required corrective action, a follow up audit may be required.
<b>Purpose of this document</b>	All auditors will follow this checklist for conducting ISSF DCC Compliance audits. The completed and approved copy of this checklist will serve as the audit report for each participating company.

Conformance with ISSF Commitments	
<b>Non-conformances</b>	Non-conformances must be raised against specific ISSF conservation measures. The severity of the non-conformance – and whether this jeopardizes the integrity of the ISSF program – determines which non-conformances are raised.
<b>Grading</b>	MRAG Americas defines audit findings as follows: <ul style="list-style-type: none"> <li>· Conformance (OK) - the DCC can provide evidence of compliance with a conservation measure</li> <li>· Non-conformance (NC) – the DCC does not comply with a conservation measure, and this compromises the integrity of the ISSF initiatives</li> </ul>
<b>MRAG Americas' procedures</b>	MRAG Americas' procedures for handling non-conformances for DCCs are as follows: <ul style="list-style-type: none"> <li>· MRAG Americas substantiates conformance through documented evidence.</li> <li>· Where a company cannot provide documented evidence of conformance with a conservation measure, a non-conformance must be issued.</li> <li>· All non-conformances must be graded either major or minor.</li> <li>· In the case of a non-conformance, ISSF may require a Corrective Action Response (CAR). The</li> </ul>

	corrective actions must be in place and evidence of addressing the condition must be supplied to MRAG or ISSF within an agreed timescale or a follow up audit may be required.
<b>Corrective Action Responses (CARs)</b>	To rectify non-conformances, the DCC may be given the opportunity to provide a CAR. The nature of the CAR is at the discretion of the DCC. MRAG Americas does not advise on what specific corrective action the DCC may take but will assess whether the CAR is expected to address the non-conformance. MRAG Americas will also not provide advice with respect to any sanction that might be applied to a DCC resulting from identified non-conformances. Such action will be at the discretion of the ISSF.
