

SUMMARY OF SUSTAINABLE FISH STOCKS (MSC Principle 1 Averages)

February 2013 through July 2026

The P1 averages in the graph below were calculated using the average scores of all stocks for each performance indicator.

*Includes for the first time the 4 bluefin tuna stocks (Western Atlantic bluefin, Eastern Atlantic and Mediterranean bluefin, Pacific bluefin and Southern bluefin) under Principle 1 assessments.

**Some changes are due to consolidation and adjustments to the MSC Standards.

***In 2017 MSC issued more clear (and stricter) guidance on how to score HCRs.
